SUMMARY

I am an enthusiastic undergraduate currently pursuing my degree, with a strong foundation in Full Stack development and hands-on experience gained through innovative projects. I am passionate about continuous learning and eager to apply my academic knowledge to real-world challenges. With excellent interpersonal and communication skills, I am seeking an opportunity that fosters both personal and professional growth while allowing me to contribute meaningfully as I continue my studies.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT)	2022 - Present
• BSc (Hons) in Information Technology (Reading)	
University of Moratuwa	2024 - Present
• Certification of Project Management (Open Learning Platform) - (Reading)	
Mahamaya Girls' College Kandy	2021
• GCE – Advanced Level – Bio Science Stream	
• 2 C passes & S pass	
Mahamaya Girls' College Kandy	2017
• GCE – Ordinary Level	
• 8 A passes and 1 B Pass	

CERTIFICATIONS

- Online Learning programme in Python : University of Moratuwa
- Online Learning Programme in Frontend Web Development : University of Moratuwa
- Online Learning programme in Python for Beginners : University of Moratuwa
- Online learning programme in Web Design : University of Moratuwa
- AI/ML Engineer - Stage 1 : Sri Lanka Institute of Information Technology (SLIIT)
- HTML Course : Sololearn Online Institute
- Java Course : Sololearn Online Institute
- Software Engineer Intern: HackerRank
- Google Analytics for Beginners Course : Google Analytics Academy

PROFESSIONAL EXPERIENCE

Intern Software Engineer - 06 months internship iceos (Pvt) Ltd	2025 - 2026
Training Period: KT sessions for React.js, Node.js, Express.js, MongoDB, REST APIs, Git	
1.Course Pivot – Educational Platform	
• Contributed to the development of a full-stack web application designed for managing online educational content and transactions.	
• Payment Portal: Integrated secure payment processing functionality for course purchases and renewals.	
• Admin Dashboard: Built intuitive dashboards to provide real-time analytics, course metrics, and user management features.	
• Admin Transactions Module: Developed a module to track, view, and manage all financial transactions with filter, sort, and pagination features.	
2. Portfolio Projects for Company Website	
• Designed and developed multiple responsive and dynamic websites for diverse sectors:	
• Salon, Cyber Security, Agricultural, and Charity projects, focusing on UI/UX consistency and performance optimization.	
3. Service Market Project (Ongoing):	
• Currently contributing to a service marketplace platform aimed at connecting clients and service providers.	
• Working on frontend and backend modules, integrating APIs, and optimizing user workflow.	
4.Clarity Score Project (Performance Evaluation System)	
• Designed logic to analyze task completion, role-based contributions, and sprint-level performance indicators.	
• Implemented automated score calculation mechanisms using configurable rules and weighted parameters.	
• Developed role-based dashboards for Admins and users, enabling transparent performance tracking and decision support.	
• Ensured data accuracy, validation checks, and scalability for multi-project and multi-user environments.	
Junior Full-Stack Engineer - 06 months internship	July 2024 - January 2025
DMS Software Technologies PVT LTD	
1.Sri Lanka Railways Project	
• Contributed to enterprise-level software solutions using Oracle technologies, including Oracle Forms, Oracle Reports, and PL/SQL.	
• Participated in requirements gathering sessions and UI/UX design reviews to align development with client expectations.	
• Developed and maintained backend modules for inventory and procurement management systems.	
• Gained hands-on experience in the full Software Development Life Cycle (SDLC), from analysis to deployment.	
• Prepared technical documentation and engaged in knowledge transfer sessions to support team collaboration and long-term maintainability.	
2. NKAR Tour Guide Project	
• Focused on creating a seamless, intuitive UI/UX tailored to tourists and travel planners.	
• Collaborated closely with the development team and participated in client visits to gather feedback and align functionality with business requirements and user expectations.	

LANGUAGES

- English (Professional Working Proficiency)
- Sinhala (Native)

INDIVIDUAL PROJECTS

- 1. Bus Ticketing System
 - Used Technologies: MERN Stack, qrcode.react
 - A full-stack web application for booking bus tickets online in Sri Lanka. Users can view buses, book seats, and scan QR codes for tickets. Built with React, Node.js, Express, and MongoDB
- 2. Mobile Application: Photography App
 - Used Technologies: Figma
- 3. Mobile Application: Beatflow
 - Cutting-edge music application designed to redefine the way you experience music.
- 4. Mobile Application Maths quiz game
 - Used Technologies: Kotlin
- 5. Web Application for Mobile App
 - Used Technologies: Figma
- 6. E-commerce Web Application
 - Used Technologies: MongoDB, Express, ReactJS, NodeJS, VS Code
- 7. Chatbot Application
 - Used Technologies: MongoDB, Express, ReactJS, NodeJS, VS Code
 - Built a chatbot app capable of handling user queries and providing automated responses.
 - Implemented message handling, basic natural language processing, and a user-friendly chat interface.
- 8. Resume Analyzer
 - Used Technologies: MongoDB, Express, ReactJS, NodeJS, VS Code, python
 - Built a web application that analyzes uploaded resumes and provides insights such as keyword density, formatting issues, and job match suggestions.
 - Enabled users to upload .pdf or .docx files and receive instant feedback on resume quality.

GROUP PROJECTS

- 1. Per care web application: Staff management system
 - Used Technologies: MongoDB, Express, ReactJS, NodeJS, VS Code, Postman
- 2. Online grocery management system: Payment portal
 - Used Technologies: Java | Servlets | JSP | JavaScript | HTML | CSS | MySQL | MVC architecture and OOP concepts
 - User registration and authentication, Shopping cart and order placement, Secure online payment portal
- 3. TopJobs.lk User Interface Redesign
 - Used Technologies: Figma
- 4. Web Application Brainquest Gaming System
 - Used Technologies: HTML | CSS | JavaScript | PHP
- 5. Travel Reservation Web Application: Hotel and booking management system
 - Used Technologies: MongoDB, Express, ReactJS, NodeJS, VS Code
- 6. Online Learning Platform: Learning plans & Skill sharing
 - Used Technologies: MongoDB, Express, ReactJS, NodeJS, VS Code, Springboot, Postman, IntelliJ IDEA, Java

TECHNICAL SKILLS

- Programming Languages: Java, Python, C/C++, JavaScript, Kotlin, PHP, R
- Frontend Development: HTML, CSS, React.js, Web Flow
- Backend Development: Node.js, Spring Boot, Express.js
- Database Management: MongoDB, MySQL, Oracle, PL/SQL, Firebase
- Tools and Platforms: GitHub, Power BI, Apache Tomcat, Eclipse
- Mobile Development: Android (Java & Kotlin), Android Studio, Mobile UI/UX Design, React Native, Flutter, Redux
- Data Analysis: Power BI, Excel, Python (Pandas, Matplotlib)
- Designing Tools: Figma, Canva Pro, Balsamiq
- Other Technical Skills: User Research, Trello, Jira, Kanban, VS code, Tailwind CSS, Confluence

SOFT SKILLS

- Leadership
- Strategic Planning
- Critical thinking
- Stress management
- Problem-solving
- Flexibility

TESTING SKILLS

- Manual Testing
- Version control
- Bug Tracking
- Software Testing
- User Acceptance Testing
- Selenium (basic)
